UNITED STATES MORTGAGE & TRUST COMPANY  
55 CEDAR ST. NEW YORK

1903-1928

**N**EARLY TWENTY-TWO BILLION DOLLARS, the highest peak yet attained in the banking resources of the Trust Companies of the country, is revealed by the figures in this the Silver Anniversary Edition of "Trust Companies of the United States".

During the past year their resources have increased almost One and a Half Billion Dollars and compared with ten years ago the increase is over Twelve and a Half Billion Dollars.

Never before has there been such widespread interest in the fiduciary activities of Trust Companies and the rapidly increasing number of appointments under wills and trusts is unmistakable evidence that both individuals and corporations are recognizing more and more the capacity of these companies for administrative service of the highest type.

## DIGEST OF STATE REGULATIONS

Note 1—If authorized by charter; 1a—when authorized by articles of incorporation approved prior to enactment of Trust Laws in 1907.

Note 2—Illinois corporations, organized for the purpose, National and State Banks have power to accept and execute trusts, upon deposit with the State Auditor of security, for the performance of such trusts, varying in amounts from \$50,000 to \$500,000, depending upon the size of the city where the institution is located and the amount of business done. Corporations organized solely as Trust Companies have no banking powers. The Illinois Law does not require any specific reserve against bank deposits. The State Auditor has, however, visitorial powers over State Banks corresponding with those of the Comptroller of Currency over National Banks. His Department rules that Chicago Banks carry 25% against deposits and those outside of the City of Chicago carry 15%.

Note 3—If secured according to law.

Note 4—Company becoming a member of Federal Reserve System subject to provisions of Federal Reserve Act relative to reserve in substitution of the requirements of the State law concerning reserve.

Note 5—In cities and towns of less than 5,000, a reserve of 20% is required.

Note 6—Trust Companies, organized as such in Kentucky, have very limited powers. They may, however, be combined with banks, and when so organized have the powers shown in Table.

Note 7—Trust Companies receiving deposits required to keep 5% Time Deposits, 12% Demand Deposits (Country), 15% Demand Deposits (Reserve City), may accept commercial and savings deposits if so incorporated. Must deposit a guaranty fund with State Treasurer subject to approval of the Commissioner of Banks; 50% of capital up to \$200,000, and 25% of capital if above \$200,000.

Note 8—Trust Companies in Nebraska have been authorized to do a general Trust and Safe Deposit business. A portion of their assets must be deposited with the Department of Trade and Commerce.

Note 9—The New York State Law requires in the Boroughs of Manhattan and Brooklyn a reserve of 15%, of which 10% must be in actual cash on hand. Other boroughs of Greater New York, 10%, with 4% cash on hand. Other first and second class cities in the State, 10%, with 4% cash on hand. Elsewhere in the State, 10%, with 3% cash on hand. The balance of such reserve must be kept in certain selected deposi-

tories, approved by the Superintendent of Banks. Any part of the reserves on hand in excess of 3% of deposits may be deposited, subject to call, with a Federal Reserve bank in the district in which such trust company is located. Trust Companies, members of New York Clearing House, are required to carry 15% cash on hand and 10% cash in banks carrying 25% cash reserve in vaults.

Note 10—Corporations exercising trust powers required to deposit \$100,000 in cash or bonds with State Treasurer. The Columbus Clearing House requires that all active members carry a reserve conforming to State and Federal requirements.

Note 11—Not if doing a banking business.

Note 12—Unless authorized by charter or amendment thereto.

Note 13—Title Companies doing a trust business may. Institutions doing any banking business may not.

Note 14—In case of non-member banks, reserves of savings banks or savings departments of departmental banks, reserve of 5% against deposit liabilities exclusive of public deposits, is required. One-half of this reserve is to be maintained in cash on hand or in Federal Reserve Bank, and the balance on deposit with designated reserve depositories. Commercial banks and commercial departments of departmental banks likewise maintain one-half of their reserves in cash and one-half with designated depositories. The amount of reserves varies as follows: 18% of such deposits for banks with principal place of business in cities of 100,000 or over. 15% in cities of between 50,000 and 100,000. 12% if located elsewhere.

Note 15—This applies to cities over 50,000—10%, one-third of which must be in cash required in cities under 50,000.

Note 16—7% demand deposits, 3% total time and savings deposits; 10% in reserve and 13% in central reserve cities under Federal Reserve Act of December, 1913, on demand deposits and 3% on time and savings deposits; one-third of reserve in cash and remainder on deposit in approved banks.

Note 17—15% demand deposits, 7% time and savings deposits, required in cities under 50,000; and 25% of demand and 10% of time and savings deposits required in cities over 50,000.

Note 18—A company doing a guarantee business or title insurance business cannot engage in the banking business.

Note 19—For those Trust Companies and Banks that are designated reserve banks, the legal requirement is 20%.

Note 20—Trust Companies in Michigan are not permitted to do a banking business, although under the supervision of the State Banking Department. They are required to deposit with the State Treasurer approved securities to the amount of 50% of their capital stock (but in no case more than \$200,000), as security for their depositors and creditors. A reserve of 20% of matured obligations is required, of which three-fourths may be kept in any bank or trust company approved by the Commissioner of the Banking Department.

Note 21—20% in Boston, of which 8% cash; 15% outside of Boston, of which 6% cash. One-half of cash and one-third of amount carried in banks may be in bonds of the United States or Commonwealth of Massachusetts at market value.

Trust Companies in Boston acting as reserve agents for other Massachusetts Trust Companies must carry one-half or 10% in cash, remainder in balances due from reserve banks.

Above requirements apply to non-member banks only.

Note 22—Trust Companies may receive deposit of money from any bank, savings bank, trust company or from any public officer or board, subject to checks or from any person, corporation, or association upon certificate of deposit.

Note 23—In towns of less than 2,500 population, 15%; in cities of 2,500 population and over, 20%; of which two-thirds must be with approved Bank having \$50,000, or upwards of capital.

Note 24—Savings Banking only by special provision with 15% cash reserve required, one-third of which shall be kept in actual cash and two-thirds may be kept with approved reserve agents. Power to guarantee bond issues can only be exercised by banking and trust companies.

Note 25—In Iowa the reserve requirement for sight deposits is 15% in towns of 3,000 and under.

Note 26—Two-thirds of reserve may be on deposit; one-third may consist of U. S. or designated state bonds.

Note 27—Wisconsin Trust Companies may make collateral loans only; may receive time but not demand or checking deposits. Must deposit 50% of capital, but not more than \$100,000.

Note 28—Reserves 15% of demand deposits, plus 3% of time and savings deposits.

Note 29—If organized under General Corporation Act of 1874.

Note 30—Trust Companies in Oregon may underwrite bond issues, but they may not guarantee their payment.

## EXPLANATION

THE list of Trust Companies and Banks appearing in this work are furnished by the various State Banking Departments or other authoritative sources, and include the following:

1. Companies with the word "Trust" in their titles actively engaged in business in the United States and territories coming under the jurisdiction of the State Banking Commissioner, Auditor, etc., and doing either a trust or banking business or both.

2. Those banks acting in a fiduciary capacity but without the word "trust" in their titles, supervised as above stated and which have been commonly classed as trust companies, by the State banking authorities.

Trust Companies and banks formerly under state supervision but which have changed into the National System are not included in this book.

### KEY:

- ◆ *Member Federal Reserve System.*
- \* *Member American Bankers Association*
